

STEEL STUD

SPEC SHEET

Flowers Steel products offer the strength and stability your structure needs to withstand the test of time. Plus, there are many benefits to utilizing steel in your construction.

Steel products are:

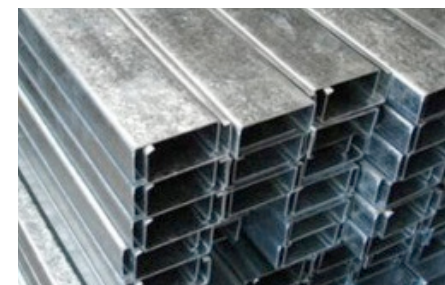

- environmentally friendly
- light
- ease to store
- easy to install
- plus resistant to insects and rot.

At our local plant, we manufacture high quality steel studs and steel tracks for use in residential, commercial and industrial buildings.

We can produce a wide variety of steel studs to your specifications – any length and 20 & 25 gauge – guaranteeing a custom fit every time, and shorter lead times. Studs may be ordered in any length by the inch over 2 ft. While, steel tracks can be purchased in 10ft lengths.
